# An online Module where you will meet students from Germany and the Netherlands

Opportunity to learn  
about interprofessional  
approaches in different  
countries

Exploring and  
exchanging methods of  
interprofessional work

Building student  
networks and possibly  
working together in the  
future

# 10 weeks of interprofessional & international collaboration via MS-Teams

Collaboration takes place in small groups (max 4 people) and in the English language

A study guide gives direction and impulses to develop a collaborative process

Tutors will be available and visit you throughout the module

MS-TEAMS will be used as online-learning platform
