

## **Orthopedics:**

### **Lectures:**

The most important lecture for orthopedics is the Interdisziplinäre Vorlesung 2.3 (IVL 2.3). It takes place in the summer term only.

For the exact topics of IVL 2.3 please see the document „Interdisziplinäre Vorlesung 2.3 (IVL 2.3)“ on the previous page.

### **Practical Training:**

#### **- Bedside teaching: „Bedsidekurs Orthopädie“**

You will do anamnesis, physical examination and discussion of the cases with the doctors of the department.
